PROFESSIONAL SUMMARY

Versatile and results-driven Web Developer & Webflow Engineer with expertise in building responsive websites, custom web applications, and dynamic CMS architectures. Proven track record of developing custom web solutions, from pixel-perfect frontend clones (HTML5, CSS3, JavaScript) to complex 23+ page Webflow web platforms and landing pages. Proficient in technical SEO, site speed optimization, cross-platform integrations (GTM, GA4, CRMs), and conversion rate optimization (CRO). Adept at bridging clean code engineering with performance-driven user experiences across global markets (USA, UK, Nigeria).

TECHNICAL SKILLS & COMPETENCIES

- **Core Web Development & Programming:** HTML5, CSS3, JavaScript (ES6+), React (in progress), TypeScript (in progress), Tailwind CSS, Git, GitHub, REST APIs.
- **Webflow & No-Code Development:** Webflow CMS Architecture, Webflow Interactions & Animations, Responsive Layouts, Dynamic Filtering, Site Speed Optimization, Webflow Custom Code Integration.
- **Technical SEO & Web Performance:** Technical SEO Audits, On-Page SEO, Keyword Research, Schema Markup, Google Search Console, SEMrush, Core Web Vitals.
- **Web Analytics & Integrations:** Google Tag Manager (GTM), Google Analytics 4 (GA4), Meta Pixel, CallRail Tracking, GoHighLevel (GHL), HubSpot, Systeme.io.
- **Engineering Competencies:** Responsive Web Design, UI/UX Principles, Cross-Browser Compatibility, Problem Solving, Code Precision, Web Accessibility (a11y).

PROFESSIONAL EXPERIENCE

Webflow Developer & Web Engineer | *Charcounting* | *USA* | *Jan 2026 - Present*

- Directed multi-platform content strategy directly with the founder, producing long-form YouTube videos, short-form Reels/TikToks, executive copywriting, and managing company and personal LinkedIn channels.
- Developed a full-scale, 23+ page custom Webflow website (www.charcounting.com) from scratch, structuring scalable Webflow CMS architectures for dynamic blog content and landing pages.
- Integrated custom JavaScript snippets and HTML/CSS enhancements to create dynamic Webflow interactions and responsive layouts.
- Implemented technical SEO and site performance optimizations, driving strategic search keywords from pages 3 - 4 to top 1- 4 positions and increasing Google Search CTR by 40%.
- Built multi-stage lead capture pages and integrated GoHighLevel workflows, CallRail tracking, GTM, and GA4 for end-to-end user behavioral tracking and conversion attribution.
- Designed UI/UX experiences that drove organic website bookings from 0 to 3+ monthly and supported $50,000+ in pipeline value.

Web & Funnel Developer (Contract) | *Bave Design Studio* | *Nigeria* | *Nov 2025 - May 2026*

- Conducted comprehensive technical UX and SEO audits for e-commerce and beauty clients in the UK and Nigeria, identifying code efficiency and page-load bottlenecks.
- Developed custom responsive landing pages (HTML/CSS/JS & Webflow) optimized for high conversion rates.
- Partnered cross-functionally with UI designers to deploy high-converting campaign pages, supporting marketing funnels that generated 35–100 monthly sign-ups/bookings.

Growth & Web Integration Specialist (Contract) | *The1999Agency* | *Nigeria* | *Sep 2025 - Mar 2026*

- Built end-to-end web architectures and landing pages using HubSpot and Systeme.io, incorporating custom lead-scoring mechanisms and automated nurturing sequences.
- Configured GA4 custom events and GTM triggers to monitor bounce rates, user retention paths, and form interaction metrics across custom web pages.

FEATURED WEB DEVELOPMENT PROJECTS

- **23+ Page Custom Web Platform** | *Webflow, HTML5, CSS3, JS, Technical SEO* | **[Charcounting.com]**

  Engineered a multi-page enterprise Webflow platform featuring dynamic CMS collections, custom JavaScript event handling, and technical SEO structure.
- **YouTube Web Application Clone** | *HTML5, CSS3, JavaScript* | **[View Repository]**

  Developed a fully responsive web application replicating the YouTube user interface. Applied flexbox/grid layouts, modular CSS, and JavaScript for dynamic DOM manipulation.
- **Digital Bank Landing Page** | *HTML5, CSS3, JavaScript* | **[View Repository]**

  Replicated a modern digital bank web page from design mockups (Frontend Mentor challenge). Focused on precise UI layout, cross-browser responsiveness, and semantic HTML structure.
- **Google DeepMind Website Clone** | *HTML5, Advanced CSS3, JavaScript* | **[View Repository]**

  Engineered a pixel-perfect recreation of the Google DeepMind landing page, showcasing advanced CSS animations, layout structure, and design accuracy.

EDUCATION

- **B.Sc. Microbiology and Industrial Biotechnology** | ***Caleb University***, *Imota, Lagos, Nigeria | Jan 2020 – Aug 2023*

CERTIFICATIONS

- **TestDome Verified Assessment**: HTML & CSS
- **SEMrush**: SEO Essentials | Keyword Research Essentials | On-Page SEO Essentials | Technical SEO and AI Search Essentials
- **HubSpot Academy**: Digital Marketing
- **Google**: Fundamentals of Digital Marketing

PROFESSIONAL DEVELOPMENT

- **Continuous Engineering Learning:** Actively building React component libraries and integrating TypeScript for type-safe frontend web applications.
- **Web Standards & Performance:** Staying updated on modern Web Vitals, accessibility standards (WCAG), CSS frameworks (Tailwind CSS), and Webflow updates.
